www.linkedin.com/in/juan-esteban-herrera-herrera/

PROFILE

Systems support technical graduate and Systems Engineering student with three years of academic practice in Java and .NET. I build React, TypeScript, Next.js and C#/.NET applications and integrate local AI models. Experience through personal, academic and collaborative projects, using AI-assisted development with code review, documentation and testing.

PRACTICAL EXPERIENCE

CUN | University research group placement | 2025 | 2 months
Organized technical documentation and institutional digital resources; classified files and information to support retrieval and review.

SELECTED PROJECTS | PERSONAL AND ACADEMIC | 2026

StanSsion

React / TypeScript / Web Audio API / Vite
github.com/JuanEstebanHerreraH/StanSsion

- Ambient sound mixing, live radio and local music.
- Pomodoro timers and notes in one interface.

Café Almacén

Next.js / TypeScript / Supabase / PostgreSQL
github.com/JuanEstebanHerreraH/Sistema_Trazabilidad_Cafetero

- Workflows for producers, farms, batches, processing, warehouses, customers and sales.
- Inventory movement relationships for batch traceability.

xIas

C# / .NET 8 / WPF / ONNX Runtime / Tesseract
github.com/JuanEstebanHerreraH/xIas

- Integrated multilingual MiniLM and ONNX Runtime for CPU-based similarity matching, and Tesseract for OCR imports.
- Built table creation, cleaning and comparison workflows with previews, Excel/CSV export and optional Google Sheets connectivity.

COLLABORATIONS AND RECENT WORK | 2026

LogiTree · TechMind team: Full stack contributor focused on backend: REST/JSON contracts, validation, JPA persistence and MockMvc tests; also contributed to the interface and dashboard.

Retazos · Edición CABA: Implemented a responsive website based on Evelin Standke’s design, including keyboard carousel navigation, a mobile menu and reduced motion.

TECHNICAL SKILLS

Development: React, TypeScript, JavaScript, Next.js, C#, .NET, WPF, Java and Spring Boot.

Data and quality: SQL, PostgreSQL, Supabase, SQLite, Git/GitHub, Docker, Vercel, MockMvc and Vitest.

Applied AI: Pretrained model integration, ONNX Runtime, Transformers.js, OCR and Web Workers.

EDUCATION

Corporación Unificada Nacional de Educación Superior CUN
Técnico Profesional en Soporte de Sistemas e Informática | Graduated February 26, 2026.
Systems Engineering in progress since 2023. Technological qualification expected in 2027.

ADDITIONAL TRAINING AND LANGUAGES

Oracle Next Education / Alura Latam | Java, Spring Boot and REST APIs | 2025-2026.

Native Spanish | English A2. Immediate availability; remote first, then hybrid and on-site.
